Meeting Information

TARGET AUDIENCE

This meeting is specifically designed for member and non-member physicians engaged in the practice of cardiology. The educational program is also meant for medical staff involved in clinical and practice management issues related to cardiology. TCACC also encourages residents and fellows in training (FIT) to attend the meeting.

FELLOWS, RESIDENTS, AND CV TEAM MEMBER POSTER PRESENTATIONS

The Fellows' Poster Committee has received and reviewed numerous abstracts to be presented as posters for your viewing throughout the meeting. Attendees will have the opportunity to vote on the top poster presentations. Awards for the top poster presentations will be presented at the end of the meeting on Sunday.

STATEMENT OF NEED

Cardiovascular disease (CVD) remains the leading cause of mortality across the U.S. and globally. It is essential that CV clinicians be both skilled and current on contemporary best practices to ensure that patients with CVD receive consistent, high-quality care.

JOINT ACCREDITATION STATEMENT

In support of improving patient care, this activity has been planned and implemented by the American College of Cardiology Foundation and the Texas Chapter of the American College of Cardiology (TCACC). The American College of Cardiology Foundation is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE) and the American Nurses Credentialing Center (ANCC) to provide continuing education for the health care team.

Meeting Goals and Objectives

OVERALL GOAL

Physicians and medical clinicians are constantly adapting to new technology, new regulations and new laws all while providing the best care for their patients. This conference is designed to help physicians to overcome the frustration and fear that they have with these challenges.

MEETING OBJECTIVES

- Apply updated knowledge of latest cardiological procedures.
- Explain new and relevant updates in cardiology.
- List common complications encountered in the care of adult congenital heart disease.
- How to recognize stage D heart failure and identify treatment options.
- Identify arrhythmias, assess risk and explore treatment options for patients.
- Assess legislation, status, outcomes and changes to laws impacting imaging and medical liability.

Exhibitor Information

Meet Our Exhibitors

Take time to browse through the exhibits to see the latest and greatest in cardiology-focused products and services. The welcome reception, continental breakfasts and refreshment breaks will all be hosted in the exhibit hall. TCACC appreciates the support from all companies that participate in the Annual Meeting.

Abbott	Ionis
Agepha Pharma	iz llc
Alnylam Pharmaceuticals	JnJ Abiomed
Amgen	Kiniksa Pharmaceuticals
AstraZeneca	Merck and Co., Inc.
Baxter/Bardy Dx	MicroPort CRM
Bayer Healthcare	NewAmsterdam Pharma
BetterNight	NextGen
Boehringer-Ingelheim	Novartis
BridgeBio	Octagos Health
CardioOne	Pfizer Inc.
CareDx	RHYTHMEDIX
Chiesi Global Rare Diseases	South Heart Clinic
CVRx	ZOLL Cardiac Mgmt Solutions
Esperion Therapeutics	ZOLL Itamar
HeartFlow	Zywie Healthcare
Idorsia Pharmaceuticals	
Impulse Dynamics	

Grand Prize Giveaway

Visit each exhibitor to be eligible for a grand prize drawing! The drawing to announce the lucky winner will be held on Saturday afternoon in the exhibit hall. Look for the details in your onsite registration packet.

CARDIAC DEVICE MONITORING PLATFORM

- + End-to-end solution for implantable devices, wearables and RPM
- + Cloud-based platform powered by artificial intelligence that bidirectionally integrates with EHRs
- + IBHRE certified device specialists to triage device reports prior to provider review
- + HIPAA compliant and SOC 2 Type 2 certified platform

Artificial Intelligence

Healthcare Analytics

Platform Integration

Octagos Health: 13325, Hargrave Road, Suite #281 Houston, TX 77070, (281) 7698733

info@octagoshealth.com

KEY BENEFITS

- + **IMPROVED EFFICIENCY**
Minimize training time with easy to use platform
- + **INCREASED REVENUE**
Automation to improve collections
- + **AI ENGINE**
Faster and more informed decisions
- + **ANALYTICS**
Population & patient-level analytics
- + **CLOUD-BASED**
Access platform from any device
- + **EHR INTEGRATION**
Bidirectional integration with all major EHRs
- + **STREAMLINED WORKFLOW**
Reduce staff & physician administrative time
- + **ALERT PRIORITIZATION**
Quickly prioritize alerts based on preferences
- + **ACTIONABLE DATA**
Avoid reviewing unnecessary data
- + **SMS MESSAGING**
Patient & provider messaging capability

Improve Quality

Increase Revenue

Decrease Staff Time

Better Outcomes

Octagos Health provides a cloud-based platform that aggregates remote and in-person cardiac device data for implantables, wearables and remote physiologic monitoring.

Industry leading platform powered by artificial intelligence engine with sophisticated, bidirectional EHR integration.
